Sonya Lenzendorf, Health Officer

August 2023

Dear parents/guardians of all school-aged children,

The Wisconsin Immunization Program has granted approval to Crawford County Health and Human Services Department to provide **FREE INFLUENZA VACCINE** to all school-aged children Pre-K through 12<sup>th</sup> grade. Yearly influenza vaccination is highly recommended for all persons aged 6 months and older.

**\*\*\* If you would like your child to receive an influenza vaccine please return the consents forms to your school by Friday, September 15, 2023. \*\*\***

Depending on whether your child received an influenza vaccine in the past, some children younger than nine years of age will need two doses of vaccine spaced four weeks apart.

We anticipate holding school vaccination clinics in October. If your child is unable to be at school the day of the vaccination clinic they can still get the free vaccination (while supplies lasts) by scheduling an appointment at our office.

If you have any questions about your child's vaccine record, vaccination clinics, or vaccine information please call 326-0229 from 8:00 AM to 4:30 PM. The CDC's website is an additional resource and can be found at [www.cdc.gov](http://www.cdc.gov). Your child's health care provider can also answer your questions regarding vaccinations.

Sincerely,

Crawford County Health & Human Services
